International		#DIV/0!

What level of participation did the various sectors have in institute organized activities (e.g. thematic programs, collaborative research themes, lectures and seminars, summer schools)? Report the data both as the actual number of each participant type and as a percentage of the total number of participants involved in the activity. For data that is not collected, please enter "N/A". If data regarding participation from another sector was collected, this can be included in the last column.

What level of participation did HQP have in institute organized activities (e.g. thematic programs, collaborative research themes, lectures and seminars, summer schools)? Report the data both as the actual number of each participant type and as a percentage of the total number of participants involved in the activity. For data that is not collected, please enter "N/A".

What level of participation did the various regions have in institute organized activities (e.g. thematic programs, collaborative research themes, lectures and seminars, summer schools)? Report the data both as the actual number of each participant type and as a percentage of the total number of participants involved in the activity. For data that is not collected, please enter "N/A". If participation from another region was collected, this can be included in the last column.
