Professor Mark Devlin
Department of Physics
University of Pennsylvania
USA

Dear Mark:

I acknowledge that I am identified by name as a co-investigator on the proposal entitled MUSTANG2 A Next Generation 90 GHz receiver for the Green Bank Telescope which you are submitting to the NSF ATI program. I have read the proposal about what the camera can do for very high resolution Sunyaev Zeldovich studies, understand my responsibilities, and intend to carry them out. I understand that the extent and justification of our participation as stated in this proposal will be considered during peer review in determining, in part, the merits of this proposal.

Yours Sincerely

J. Richard Bond OC, O,Ont., FRS, FRSC
University Professor, CITA
Director, Canadian Institute for Advanced
Research Cosmology and Gravity Program
